

The logo features the word "rimaster" in a white, lowercase, sans-serif font. A small red triangle is positioned above the letter 'i'. Below the main text, the tagline "-ability to create simplicity" is written in a smaller, white, italicized sans-serif font. The background is a dark blue gradient with a complex, glowing circuit board pattern of lines and nodes.

rimaster
-ability to create simplicity

HIGH MIX / LOW VOLUMES PRODUCTION

Rimaster is a leading supplier in the field of integrated systems solutions and special vehicle's expert.

This is why we have developed an effective, highly adaptable process at all our facilities.

From design, production to final testing of complex digital products.

Market segments

Special Vehicles

- Materials handling
- Road&Construction
- Mining industry
- Forestry and agriculture

Market segments

Industrial Systems

- Automation and control systems
- Charging applications
- Renewable energy

Wiring Harnesses

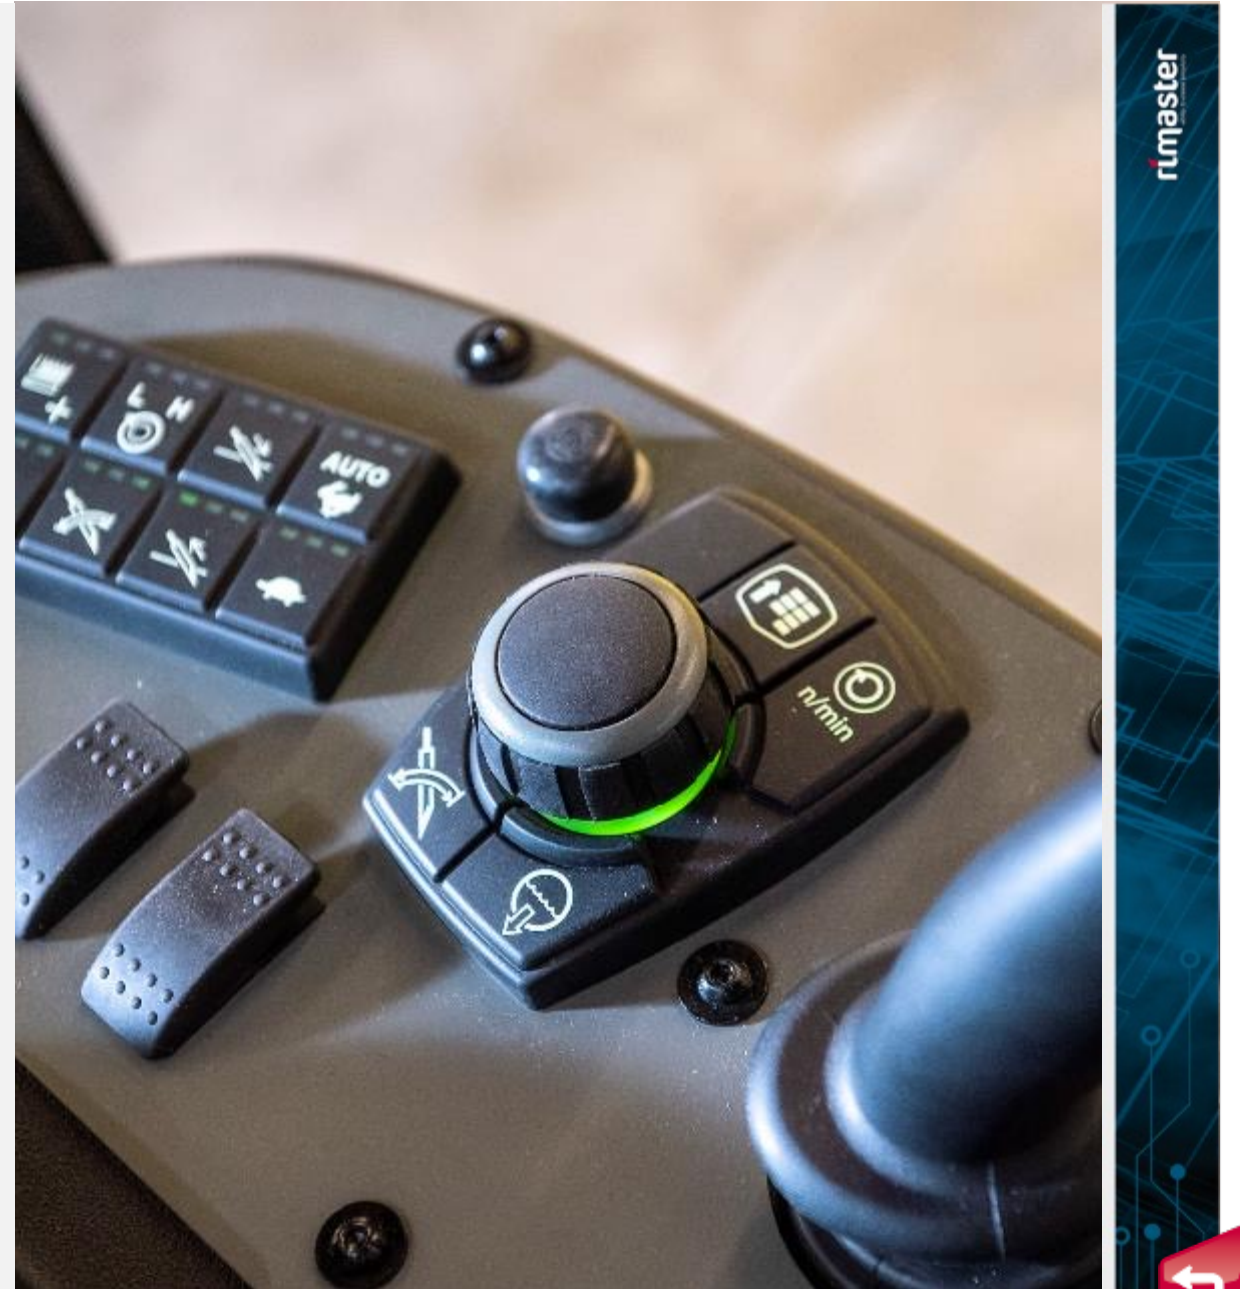

- Assembly
- Automatic crimping
- Rimaster Testing Platform RTP
- Global supply chain
- UL certified plants
- Braiding
- Ultrasonic welding
- Overmolding

PRODUCTION PLANTS: Sweden, Poland, Serbia, China,

Control Panels

- In house supply chain (mechanics, PCB's, wiring...)
- Specialized production cells
- Global supply chain
- Function test:
 - Rimaster Testing Platform RTP
 - Digital test
 - Specific bench test development
- Braiding
- Ultrasonic welding
- Overmolding

PRODUCTION PLANTS: Sweden, Poland, China

Electrical Cabinets

- Automatic cable preparation
- In house supply chain (mechanics, PCB's, wiring...)
- Special lifting equipment
- Custom specific tests
- High voltage tests
- Partnership with key suppliers
- From concept to finished product

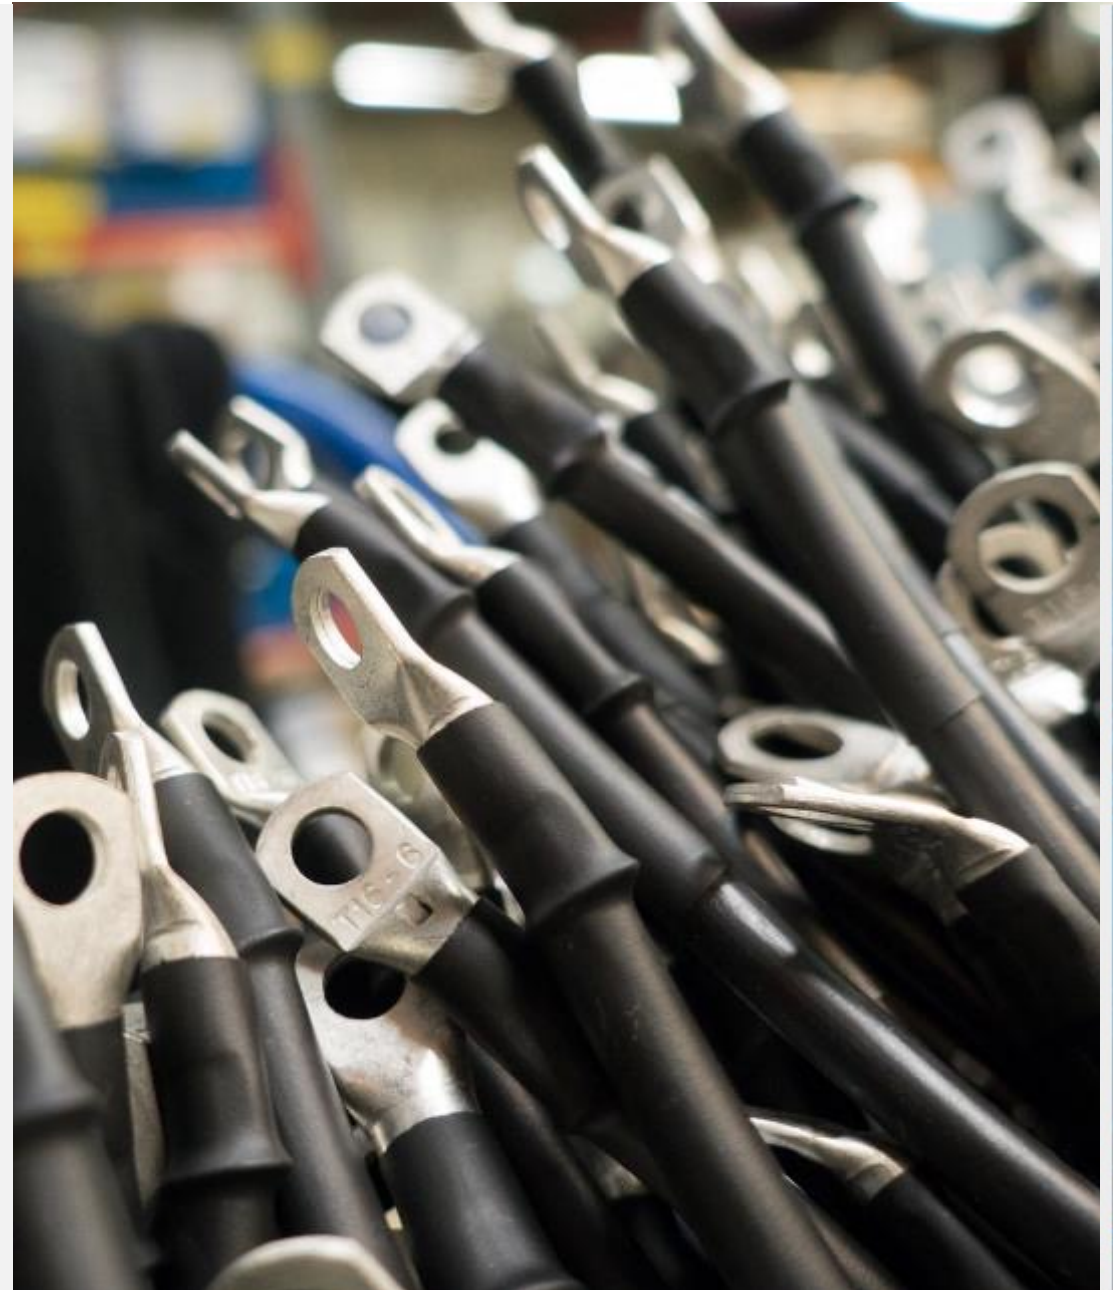

PRODUCTION PLANTS: Sweden, Poland, China

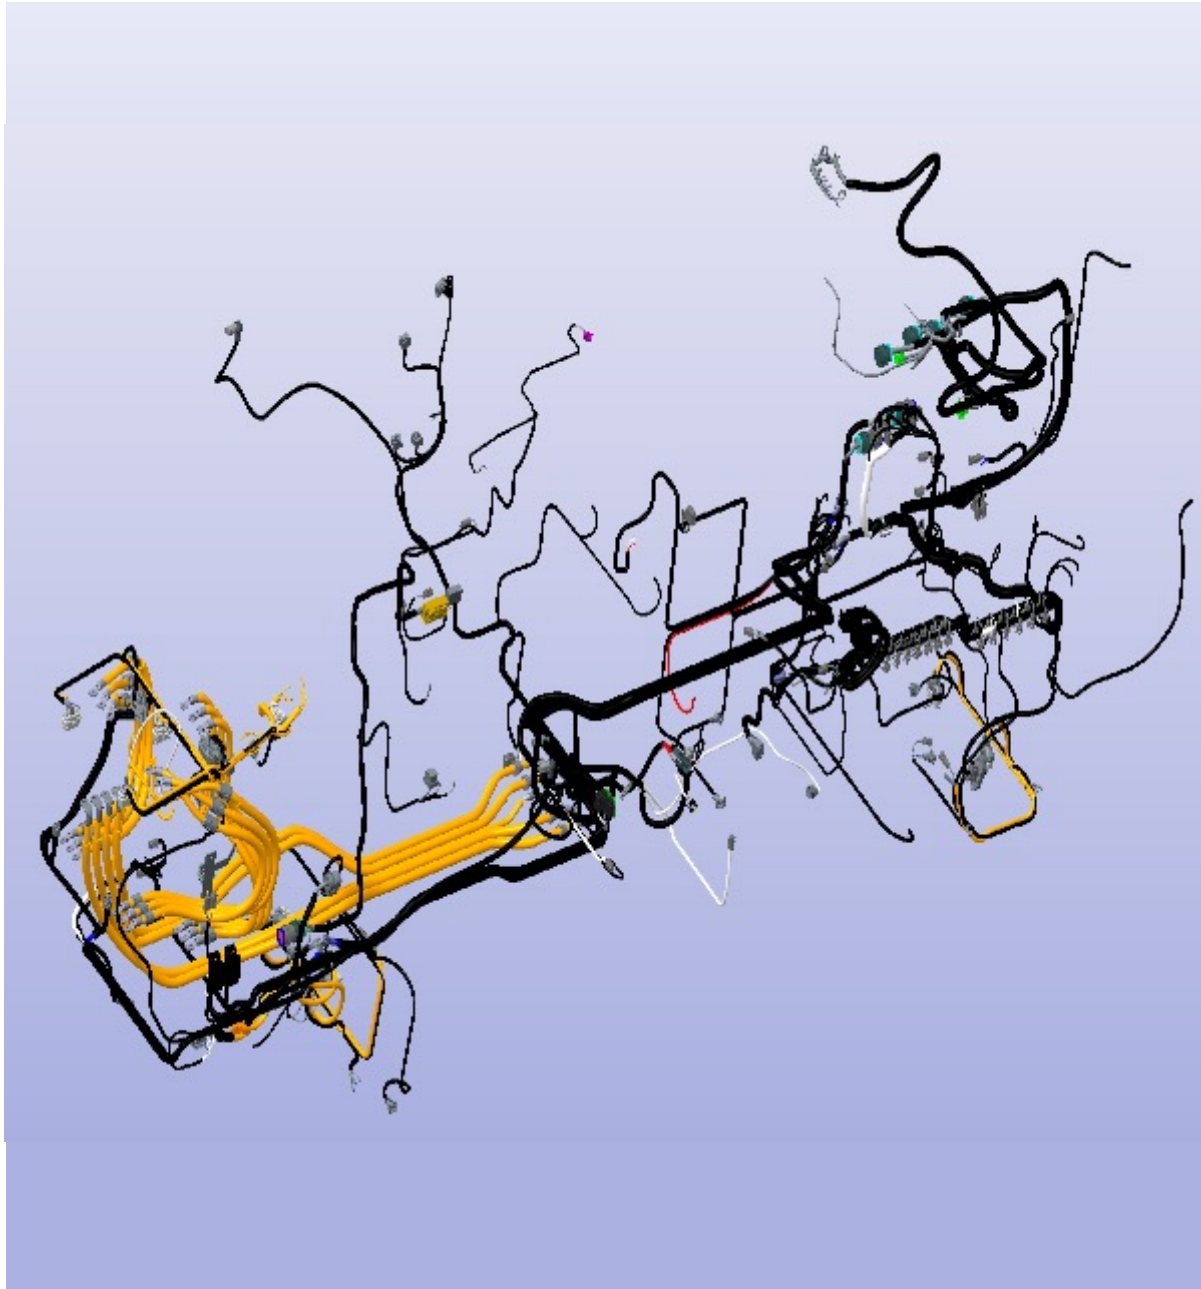

Power cables

- Highly automated production
- Ultrasonic welding
- Molded cables
- Standardized high volume purchase

PRODUCTION PLANTS: Sweden, Poland, China, Serbia

Development

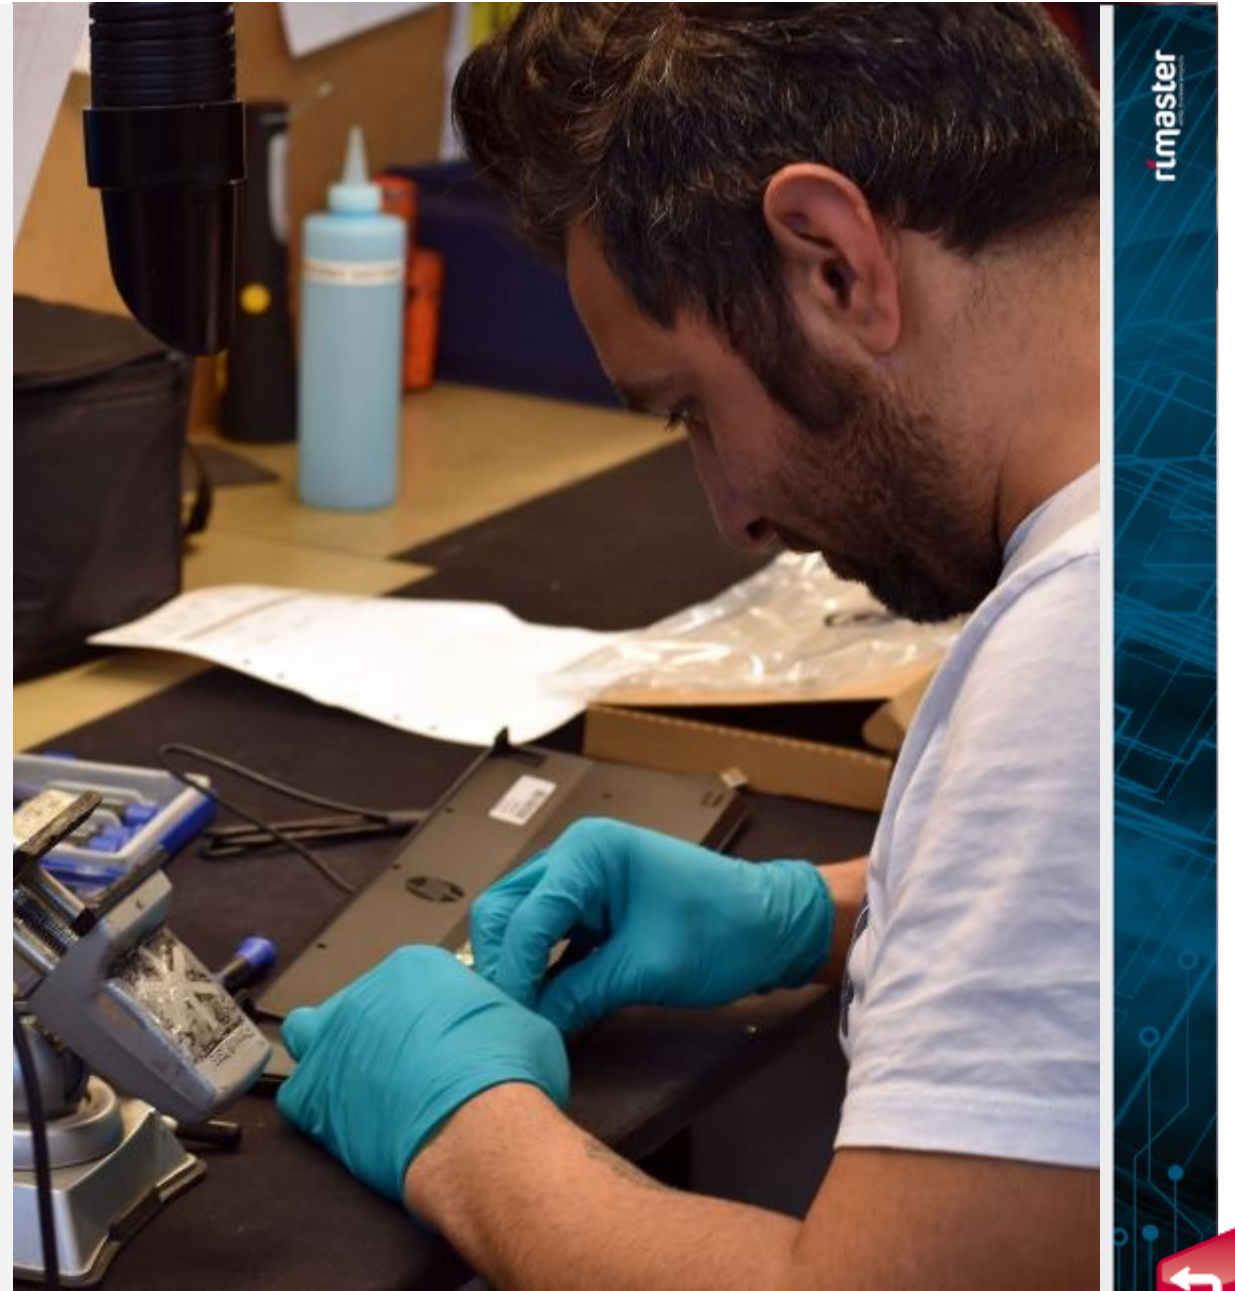

- Creo Parametric cabling and harness to develop 3D harness designs
- Circuit diagram
- Wiring diagram
- Flat harness drawing
- System design
- Electronics design (PCB)
- Programming
- Application knowledge and expertise
- First-time correct functionality

Global development: Sweden, Belgium, France

Mechanics

- Development and Production of sheet metal products
- Laser cutting, press brake, welding etc. in-house. Surface treatment together with partners close-by
- Certified according to ISO 3834.
- Fully automated laser cutting line from Amada
- Products ranging from complex complete cabins to electrical boxes and sheet metal products for i.e computers.
- Used to work with both very small batches up to medium volumes. (Batch sizes typically varies from 5 up to 300 per batch)

PRODUCTION PLANTS: Rimaster Cab & Mechanics, Horn Sweden.

Cabs

- Development and assembly of complete cabs for special vehicles, all the way from sheet metal.
- Assembly of cabins based on customer owned/standard cabin frames.
- We also offer a proprietary cab solution, riCab.
- Complete sourcing and logistic chain provided.
- Long experience in testing of Plug&Play cabins.
- Annual volumes from 10 cabins per year to several hundred, depending on customer requirements.

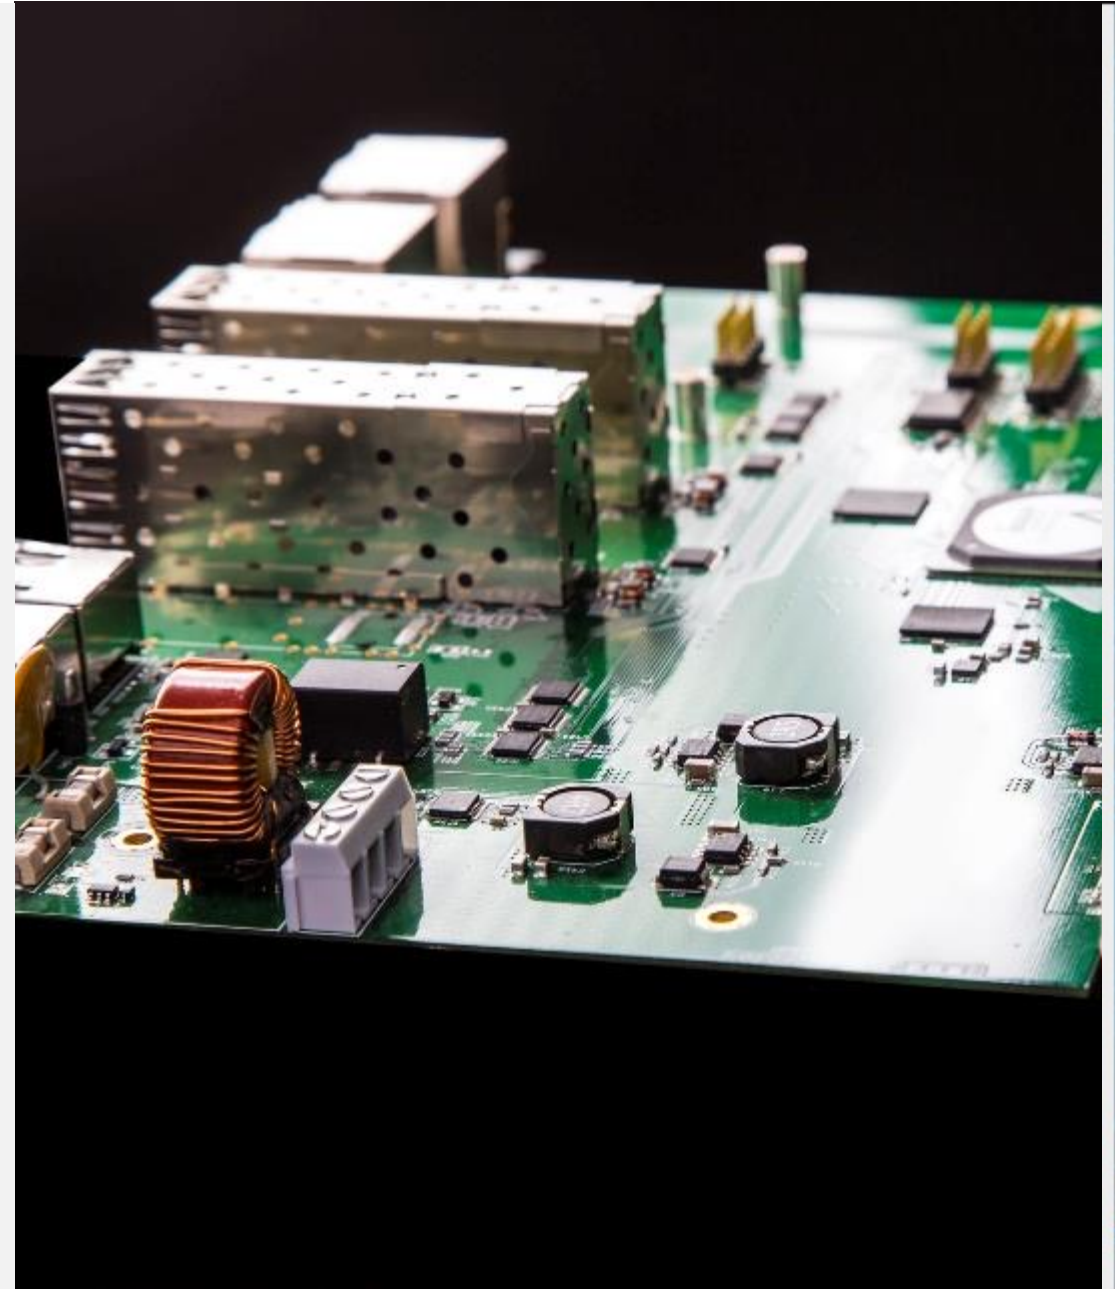

PRODUCTION PLANTS: Rimaster Cab & Mechanics, Horn Sweden.

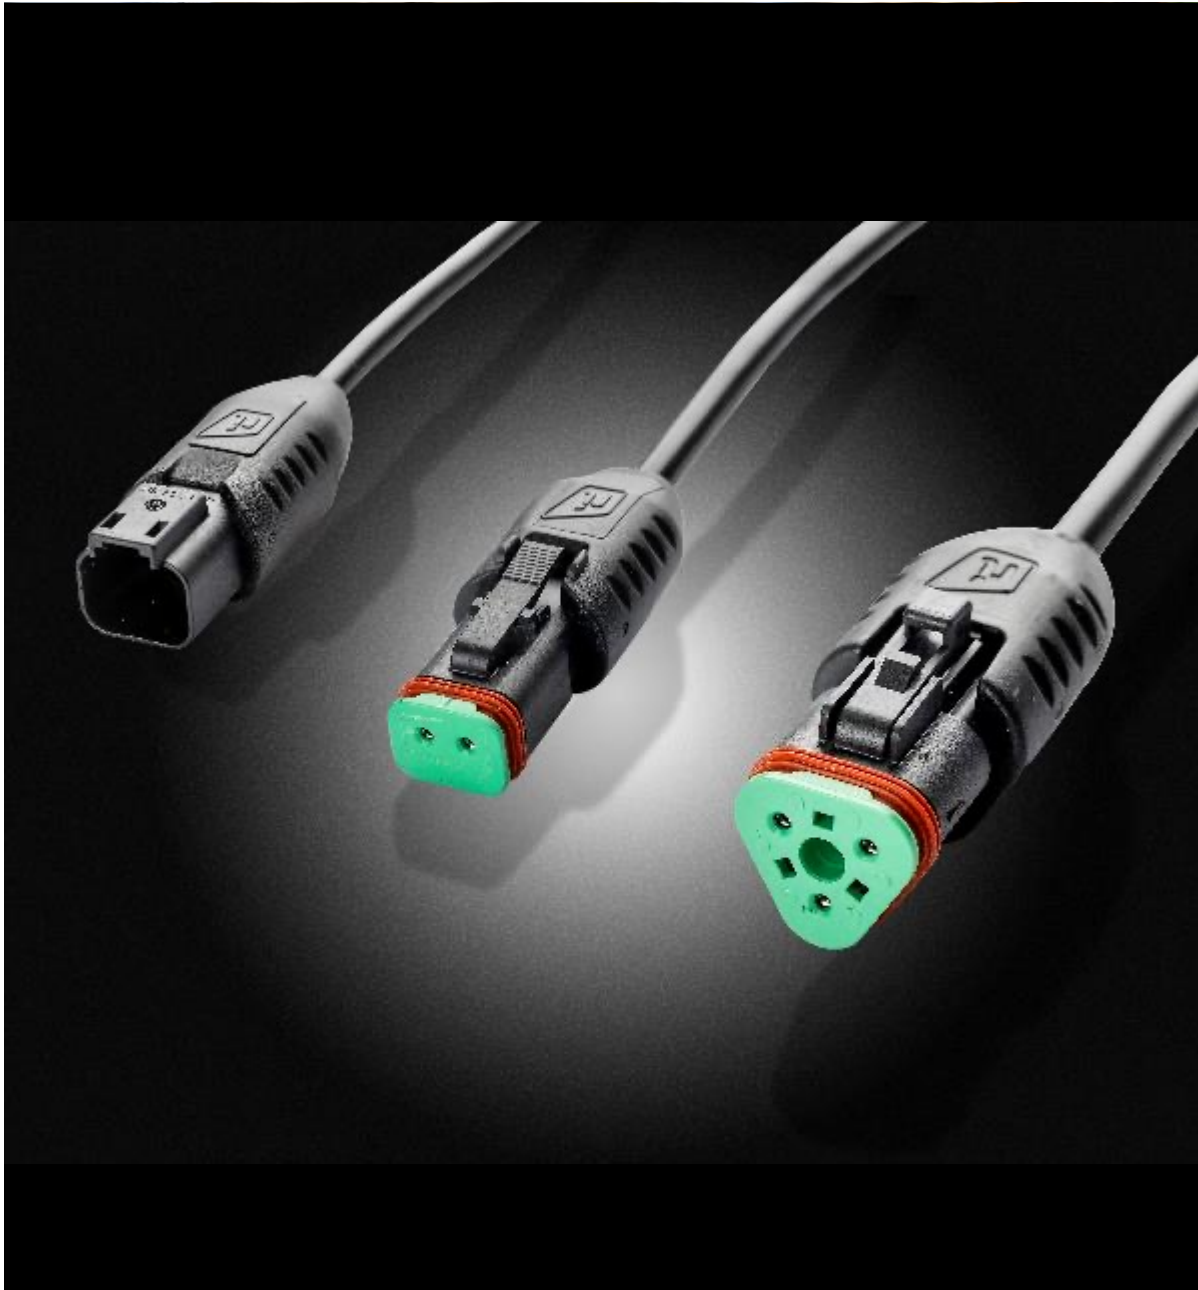

Electronics

- Production and supply of PCBAs and complete assembled products based on electronics
- Surface mounting
 - Screen printing
 - SMD mounting
 - Reflow oven
- Through hole mounting
 - Selective soldering machines, lead and lead free
 - All mounting is done by hand. This is optimal for low volume/high mix production
- Test and programming
 - Automatic optical and manual inspection after surface- and through hole mounting
 - Functional testing including test design
 - High voltage and isolation testing
 - Programming/loading of specific software

PRODUCTION PLANTS: Rimaster Development, Soderhamn Sweden

Plastic Molding

- High pressure and Low pressure molding machines
- In-house 3D modeling and development
- From concept to finished products in a few weeks
- Owned products like RiCon or Reinforced
- Customized and premium solutions for every applications
- High specs for harsh environments
- Pigtails or complete harness integration

PRODUCTION PLANTS: Rimaster Electrosystems, Rimforsa Sweden.

Own products

- Development and production of own products focused towards special vehicles

PRODUCTION PLANTS: Rimaster Sweden
