## **Peter Hyltberg Appointed New CFO of Rimaster Group**

**Peter Hyltberg has been appointed as the new Chief Financial Officer (CFO) of the Rimaster Group. He brings extensive experience from Swedish and international service and manufacturing industries.**

Peter Hyltberg studied Industrial Engineering and Management at Linköping University and has held senior positions in several industrial companies – including the forklift manufacturer Toyota Material Handling in Mjölby. He also has a background as a professional military officer. He lives in Linköping with his family.

Peter highlights Rimaster's broad customer base – which spans companies of various sizes and sectors, many with well-known brands – as a major competitive advantage.

"I appreciate the way Rimaster has successfully modularised its offering, including proprietary products that serve a unique function in the market. This provides an ideal foundation for offering complete solutions in the high-mix, low-volume segment, while maintaining strong delivery performance, quality, and cost-efficiency for our customers. It's also something that can drive Rimaster's growth," says Peter.

Peter Hyltberg took up his new role on 1 April and will be based at Rimaster's group headquarters in Rimforsa.

*Rimaster is a privately owned company founded in 1982. Today, Rimaster is a partner and leading supplier in the development and manufacturing of wiring harnesses, electrical cabinets, electronics, cabs, and mechanical systems for special vehicles and industrial systems. Its customers are often global market leaders in their respective fields – such as material handling, mining, forestry, and agriculture vehicles, as well as industrial automation applications. The group has an annual turnover of approximately SEK 1.3 billion and employs around 1,250 people.*

*Rimaster's facilities for sales, design, development, and production are located in Rimforsa, Söderhamn, and Horn in Sweden; Paracin in Serbia; Czaplonek and Borne Sulinowo in Poland; and Ningbo, just south of Shanghai, in China. The company also has sales offices in Belgium, France, and Germany.*
